

## forScore to MobileSheet migration

### Metadata Reference document

This document is used to experiment and test populating PDF metadata fields in order to work out the best way to encode them for correct auto-populate into MobileSheets upon score import.

=====

The exiftool parameters file for this test

```
# NOTE: Several of the below tags are custom tags and depend
# on the existence of custom tag definitions in the
# file ~/.ExifTool_config. See notes concerning this in my Evernote
# note "PDF Meta-Data Properties"
